This Week's **IRRESISTIBLE** Offers
Face Up To Autumn

Dr Baumann Peeling Mild

DESCRIPTION:

A granular exfoliator for face, neck and decollete.

BENEFITS:

A particularly gentle facial exfoliation by perfectly spherical polyethylene granules. The massaging action of the gentle exfoliating particles stimulates blood circulation without damaging the skin. The exfoliation of dead skin cells prevents blackheads and impurities and improves the effectiveness of skincare products. The cleansing, smoothing and revitalising action makes the skin look fresher, smoother and more attractive.

USE:

Can be used mornings or evenings, once to twice a week; or as otherwise prescribed by an industry professional. Gently massage it into the skin using small circular motions. The duration of use is dependant on individual skin types and requirements, however generally the exfoliatory massaging action is for two to three minutes.

RECOMMENDED COMPLEMENTARY PRODUCT(S):

Dr Baumann Cleansing Milk Special
Dr Baumann Sensitive for Normal and Dry Skin

PRODUCT DETAILS:

Art.-No. 1938 75ml Bottle

Recommended Retail

R 339.00

INGREDIENTS (INCI) LIST:

Aqua, Ethyl Hexyl Cocoate, Butylene Glycol, Sucrose Cocoate, Polyethylene, Cetearth-20, Stearyl Alcohol, Carbomer, Tetrahydroxypropyl Ethylenediamine

Dr Baumann Peeling Medium

DESCRIPTION:

A granular exfoliator for face, neck and decollete.

BENEFITS:

Facial exfoliation which is slightly courser than Dr Baumann Peeling Mild, but not as course Dr Baumann Peeling Strong. Exfoliation is still by use of perfectly spherical polyethylene granules. The massaging action of the gentle exfoliating particles stimulates blood circulation without damaging the skin. The exfoliation of dead skin cells prevents blackheads and impurities and improves the effectiveness of skincare products. The cleansing, smoothing and revitalising action makes the skin look fresher, smoother and more attractive.

USE:

Can be used mornings or evenings, once to twice a week; or as otherwise prescribed by an industry professional. Gently massage it into the skin using small circular motions. The duration of use is dependant on individual skin types and requirements, however generally the exfoliatory massaging action is for two to three minutes.

Dr Baumann Peeling Strong

DESCRIPTION:

A granular exfoliator for face, neck and decollete.

BENEFITS:

Facial exfoliation which is the coarsest of the Dr Baumann Peeling series. Exfoliation is still by use of perfectly spherical polyethylene granules. The massaging action of the gentle exfoliating particles stimulates blood circulation without damaging the skin. The exfoliation of dead skin cells prevents blackheads and impurities and improves the effectiveness of skincare products. The cleansing, smoothing and revitalising action makes the skin look fresher, smoother and more attractive.

USE:

Can be used mornings or evenings, once to twice a week; or as otherwise prescribed by an industry professional. Gently massage it into the skin using small circular motions. The duration of use is dependant on individual skin types and requirements, however generally the exfoliatory massaging action is for two to three minutes.

Dr Baumann Cleansing Gel

DESCRIPTION:

A very gentle cleansing gel used to cleanse the face, neck and decollete.

BENEFITS:

A very mild cleansing gel which will not dry out the skin with frequent use. Great for anyone who prefers a foaming cleanser or wants to gently remove oiliness from the skin. Also effectively removes make-up.

USE:

Can be used daily, mornings and evenings. Gently lather the cleansing gel onto your skin using your fingertips. Once finished lathering remember to rinse the product from your skin. This should be done as the first step in a good skin care routine. A secondary cleanse is optional. Follow with appropriate facial tonic lotion.

RECOMMENDED COMPLEMENTARY PRODUCT(S):

Dr Baumann Solarium Liposome
Dr Baumann Liposome Multi-Active Ceramide

PRODUCT DETAILS:

PRODUCT DETAILS:		Recommended Retail

Dr Baumann Bleaching Cream

DESCRIPTION:

A specialised cream for hyper-pigmentation; for the face, neck and decollete.

BENEFITS:

A mild specialised cream to lighten the skin without the use of any harmful or unstable ingredients. The Dr Baumann Bleaching Cream is unlike many other hyper-pigmentation treatment creams which work by inhibiting enzymatic activity involved with melanin production - a process which leaves the skin in a heightened position of vulnerability. The Dr Baumann Bleaching Cream acts by protecting the skin from UV and affording the skin the opportunity to repair and support it's own natural physiological processes, which results in a rebalancing of melanin production in the skin. Especially effective when used in combination with an appropriate Liposome Treatment. For the most dramatic results this treatment cream should be used in combination with an appropriate professional salon treatment protocol.

USE:

Can be used daily, in the mornings and/or evenings. To apply gently and evenly smooth on a thin layer of cream onto the face, neck and decollete. This should be done after correct cleansing, toning, eye care and the application of liposomes. Any individual who is prone to hyper-pigmentation should always apply good sun protection throughout the day.

RECOMMENDED COMPLEMENTARY PRODUCT(S):

Dr Baumann Liposome Multi-Active Ceramide
Dr Baumann Liposome Multi-Active Super Cure

PRODUCT DETAILS:

Dr Baumann Cleansing Milk

DESCRIPTION:

A mild cleansing emulsion for the face.

BENEFITS:

A mild emulsion free of mineral oil which gently but thoroughly cleanses the skin without drying. Suitable for all skin types. Tip for the gentlemen: Ideal for use as a skin-friendly shaving cream before a wet shave. Use the Cleansing Milk to soften the beard for 5-10 minutes.

USE:

Can be used daily, mornings and evenings. Gently lather the Cleansing Milk onto your skin using your fingertips. Once finished lathering remember to rinse the product from your skin. This should be done as the first step in a good skin care routine. A secondary cleanse is recommended. Follow with toning.

Dr Baumann Liposome Mask

DESCRIPTION:

The perfect all-round mask to restore balance and radiance to the face, neck and decollete.

BENEFITS:

Regular application provides the skin with skin-related lipids and valuable active substances such as aloe vera, macadamia nut oil, vitamin A, natural vitamin E etc. The result of regular application is a visibly purer skin. The skin's moisture content is strongly enhanced, which works effectively against fine lines. Pimples and blackheads are disintegrated over time and impurities are slowly diminished. The complexion appears fresher, smoother and rosier and more attractive. The skin gains back freshness and resilience.

USE:

It is recommended to use a mask once to twice a week in a good skin care routine. Apply the mask onto damp skin in a thin even layer on the face after cleansing and toning. Leave on the skin for twenty to twenty-five minutes and then rinse off. Follow with eye care and a suitable moisturiser/lotion/cream. The effect can be further improved by the prior application of an appropriate ampoule. Please note that any liposome product should not be used in combination with any products not manufactured by Dr Baumann Cosmetics.

RECOMMENDED COMPLEMENTARY PRODUCT(S):

SkinIDENT Facial Cleanser

DESCRIPTION:

A very gentle cleansing gel used to cleanse the face, neck and decollete.

BENEFITS:

Extremely mild surfactants based on body identical substances ensure a protecting cleansing of the face with a simultaneous cleansing and treating action due to body identical lipids.

USE:

Can be used daily, mornings and evenings. Gently lather the cleansing gel onto your skin using your fingertips. Once finished lathering remember to rinse the product from your skin. This should be done as the first step in a good skin care routine. A secondary cleanse is optional. Follow with appropriate facial tonic lotion. An alternative option to removing the Facial Cleanser is to use the Facial Tonic or Facial Tonic Special to do so.

Dr Baumann Liposome Multi-Active Tea Tree

DESCRIPTION:

A moisture-rich, nourishing and anti-bacterial serum for the face, neck and decollete.

BENEFITS:

Contains evening primrose oil, jojoba oil, vitamins A + E, provitamin B5, hyaluronic acid, tea tree and a high concentration of multi-lamellar liposomes. These have a strong moisture-dispensing action in the skin. Active substances are taken up by the liposomes and transported into the skin. Tea Tree is ideal for treating impure skin which is prone to blemishes.

USE:

Can be used daily, preferably in the mornings (although can be used mornings and/or evenings). To apply gently and evenly smooth on a thin layer of serum onto the face, neck and decollete. This should be done after correct cleansing and toning, and should also preferably be applied after the use of an eye cream/gel. If desired, one may apply a facial care lotion/cream on top of the Liposome Multi-Active Tea Tree.

RECOMMENDED COMPLEMENTARY PRODUCT(S):

Dr Baumann Hand Cream

DESCRIPTION:

A protective cream for the hands and forearms.

BENEFITS:

Cared-for hands are more attractive and simply more beautiful! The Dr Baumann Hand Cream protects stressed skin against drying cleansing substances and prevents premature ageing. It is immediately absorbed so directly after application you can hold paper without leaving an oily residue behind.

USE:

Can be used daily as desired. To apply gently and evenly rub on a thin layer of cream into the hands and forearms.

A Choice of **ADDITIONAL** Products
Face Up To Autumn

Dr Baumann Pimple Cream

DESCRIPTION:

A localised treatment for breakouts anywhere on the face, neck and/or decollete.

BENEFITS:

A specialised, localised treatment cream to dry out and quickly heal blemishes. It's anti-bacterial, sebum-regulating and healing properties makes it an ideal product for the banishing of breakouts.

USE:

Can be used daily, mornings and/or evenings. For fastest results apply several times throughout the day. The potency of the ingredients may mean that the smell may be better suited to night-time application only should this bother the person using the Pimple Cream. To apply; gently dab a small amount of the product onto the breakout(s) of concern. Only apply the product on the breakout(s) of concern, and not over the whole face. This should be done after correct cleansing and toning, eye care, liposome serum application and cream/lotion, using clean hands.

RECOMMENDED COMPLEMENTARY PRODUCT(S):

Dr Baumann Super Cream

DESCRIPTION:

A comprehensive cream for the face.

BENEFITS:

This product shows what bionome skincare can do! The rich yet light composition of oils, vitamins, lecithin and ceramides (skin-related lipids) provides the all-in-one answer – better than words can describe. The Super Cream contains all the exact active ingredients in optimal concentrations which have been identified by the Dr Baumann team, after analysis of the skin's physiology, as the most effective and compatible. The Super Cream can be used alone or preferably after the application of a Dr Baumann liposome treatment. (E.g. Liposome MultiActive Super Cure).

USE:

Can be used daily, mornings and/or evenings. To apply gently smooth an even coverage of the product into your skin using your fingers. Apply the product to the face, neck and decollete area. This should be done after correct cleansing, toning and eye care.

RECOMMENDED COMPLEMENTARY PRODUCT(S):
