

Earth Aware week is the perfect time for you to reflect on your influence on the environment. In fact we all need to actively promote the sustainability of our land, water and air through individual efforts in order to ultimately create collective, widespread impact.

Whether you choose this time to finally get on board with climate change and other issues, make plans to conserve energy for environmental and economical reasons or you take a few minutes to take the carbon footprint test then make a plan for the year (or more) ahead to work on reducing your carbon footprint, "Earth Aware" is a great time to start thinking about making these changes, especially long term.

Learn more about the environment.

Now is a good time for you, your family and friends to make a commitment to learning more about the environment and how you can help to protect it. Read up on issues such as pollution, endangered species, water shortages, recycling, and climate change. Join a local group that undertakes activities to help protect the environment in your area. **In fact keep at it all week so that hopefully this "thinking green" becomes a lifelong habit.**

Green Forever

Reduce, re-use and recycle all day long. Avoid items that come in lots of packaging. Always take your drink container with you, and don't use any disposable plates or cutlery.

Teach others about the environment. Teachers, professionals, students, and **Dr Baumann Skinologists**, in fact anyone who cares about the environment and is willing to teach others, should provide environmental lessons for others.

The Bionome Factor

The Dr Baumann Cosmetic Company and Point of Skin promote Green and Bionome as a life long commitment to their customers, the environment and animals.

All Dr Baumann products are Bionome meaning:

People/skin friendly, baby, toddler and child friendly, environmentally friendly and animal friendly
