Dr Baumann Liposome Multi-Active Light

DESCRIPTION:

A moisture-rich and nourishing serum for the face, neck and decollete.

BENEFITS:

The phospholipids of the liposomes, are important components of the intercellular substance between the skin cells, and display their effect in the upper layer of the skin. This strengthens the barrier function of the horny layer, which means a dry, flaky skin works much more effectively. Contains considerably less oil and fewer liposomes. This is ideal for oily skin, warm weather and to accustom the skin to the use of multi-lamellar liposomes.

USE:

Can be used daily, mornings and/or evenings. To apply; gently and evenly smooth on a thin layer of serum onto the face, neck and decollete. This should be done after correct cleansing and toning, using clean hands. Follow with eye cream or eye gel, and an appropriate facial care cream/lotion. Please note that any liposome product should not be used in combination with any products not manufactured by Dr Baumann Cosmetics.

RECOMMENDED COMPLEMENTARY PRODUCT(S):

Dr Baumann Cleansing Gel

DESCRIPTION:

A very gentle cleansing gel used to cleanse the face, neck and decollete.

BENEFITS:

A very mild cleansing gel which will not dry out the skin with frequent use. Great for anyone who prefers a foaming cleanser or wants to gently remove oiliness from the skin. Also effectively removes make-up.

USE:

Can be used daily, mornings and evenings. Gently lather the cleansing gel onto your skin using your fingertips. Once finished lathering remember to rinse the product from your skin. This should be done as the first step in a good skin care routine. A secondary cleanse is optional. Follow with appropriate facial tonic lotion.

Dr Baumann Shampoo

DESCRIPTION:

A particularly mild cleansing substance used to gently cleanse hair and the scalp.

BENEFITS:

An herbal extract diminishes itchiness and flakiness, while a special active ingredient reduces dandruff. Although this shampoo contains special nourishing substances, the hair is not weighed down. Afterwards the use of the Hair Conditioner is highly recommended.

USE:

Can be used daily, or as desired. Gently lather the shampoo into hair and scalp using fingertips. Once finished lathering remember to thoroughly rinse the product.

Dr Baumann Spa Rose Bath Oil

DESCRIPTION:

A fluid-textured lotion for the face.

BENEFITS:

This wonderful bath oil contains the intensely nourishing components of rose oil as well as olive oil, apricot kernel oil, jojoba oil, lecithin and vitamin E. The fluid texture and the proportion of evening primrose oil makes this an ideal alternative for intensive care of dry, fragile facial skin when other creams are too paste-like, or for particularly intensive nourishment of dry skin on areas of the body. Great for facial and body massage.

USE:

Add the desired amount of bath oil to bath water, preferably when the water is running. This promotes mixing and ensures that the bath oils provide the best possible nourishment to the skin. How long you spend in the bath is based on skin type and individual preference. Regular use leaves your skin nourished, soft and silky and therefore more beautiful.
